## User Feedback for Prototype

### ▪ Interview Script

Hello Dasitha,

I would like to thank you for being present at the interview.

In this interview we will be performing usability testing to get your feedback on the redesigned mobile application.

We will take you through the flow of UI prototype that we have made for the redesign.

You are free to give your suggestions as well so that can look out for further improvements in the prototype. If you feel confused in between the flow, feel free to let us know.

Is there anything to ask before starting the session?

Ok shall we start the session?

**Questions were asked from the respondent and the feedback were recorded.**

Thank you spending your valuable time. Do you want to clarify any doubts before we finish up?

Great! Thank you again for spending your valuable time and taking part in this interview.

Your feedback is extremely useful for us.  
Goodbye.

- **Changes requested by the interview respondent**

- The application is missing colorful buttons and texts. There need to be introduced colors to the application.
- There more white spaces that need to be used.
- Some of the fonts are small and size needs to be increased.

- **Changes made after the interview**

- Added color to the buttons, navigation drawer and screens.
- Got much use out of white spaces.
- Increased the font size in required places.
